A Seller electing to aggregate imbalances for two or more Interruptible or Off-Peak Firm Service Classification No. 9 Customers shall be subject to the following requirements which, absent Seller's agreement, would otherwise be the responsibility of each Interruptible and Off-Peak Firm Service Classification No. 9 Customer individually:

In the event the Seller tenders quantities in excess of the Maximum Daily Transportation Quantity, the Company may, in its sole discretion, transport such excess quantities if sufficient capacity is available on its system.

(3) Automatic Netting of Imbalances

Pursuant to Appendix J of the Joint Proposal dated May 28, 2004, as approved by the Commission's Order dated September 27, 2004 in Case No. 03-G-1671, Sellers serving Interruptible or Off-Peak Firm Customers, and Interruptible or Off-Peak Firm Direct Customers (excluding Power Generation Customers) are permitted to participate in the Company's Automatic Netting of Imbalances program ("Program") unless otherwise specified in the Company's Sales and Transportation Operating Procedures ("Operating Procedures"). There will be no automatic netting of imbalances under the Program on any day that an Operational Flow Order is in effect. Additional terms and conditions of the Automatic Netting of Imbalances program are set forth in the Operating Procedures.

(4) Monthly Imbalance Trading Service ("MITS")
