SERVICE CLASSIFICATION No. 6C - Continued

Termination:

Notwithstanding any other provisions of this Service Classification, if a Customer fails for any reason whatsoever, to switch to the alternate fuel upon the written or oral request of the Company; or allows gas to be consumed in violation of paragraph b, d or g above; or fails to maintain the dual-fuel equipment or associated control devices in proper working order; or interferes in any manner with the operation of such devices; or interferes with or hinders in any manner the Company's rights of access, metering and inspection; or otherwise violates any provision of this Service Classification, the Company shall have the absolute right to terminate the gas service provided for hereunder. Any customer terminated for non-compliance with this Service Classification will not be permitted to return to interruptible service until the end of the following winter season.

Additional Charge:

For gas consumed in excess of two therms per hour in violation of this Service Classification without the express written authorization of the Company, an additional charge of either (1) two times the sum of the Market Price for natural gas delivered to the Company's city gate on the day of violation plus the transportation rate the Customer would be subject to if it was a transportation customer, or (2) nine times the applicable sales rate, whichever is higher. All charges are subject to all utility taxes and surcharges. *Market Price* shall be defined as the city gate delivered market price for natural gas on the days of interruption as quoted by "Gas Daily". Where a condition is experienced by the Customer that prevents the required transfer from gas, the Customer agrees to immediately notify the Company and to take immediate action to correct such condition, and to notify the Company when such condition has been corrected.
