SERVICE CLASSIFICATION NO. 1 (CONT'D)  
Residential

MINIMUM CHARGE:

The minimum charge is the customer service charge.

TERMS OF PAYMENT:

All bills are due when rendered. Full payment must be received on or before the date shown on the bill to avoid a late payment charge of 1.5% as provided in Rule VIII of the NYMPA generic tariff.

SPECIAL PROVISIONS:

Motors whose individual capacity exceed 5 H.P. will not be served under this service classification.

If a portion of a residence is used for business or professional purposes, this classification will apply for the entire service only if the primary residential use, character and appearance of the premises is not changed, and further provided that the connected load of the portion used for business or professional purposes does not exceed 1500 watts. Otherwise the commercial rate will apply for the entire service unless the wiring is so arranged that each portion may be separately metered and billed at the appropriate rate.

PURCHASED POWER ADJUSTMENT:

The charges set forth in this service classification shall be subject to a purchased power adjustment as explained in Rule IX of the NYMPA generic tariff except that the term "present purchased power cost" in Section IX-C is determined by calculating the average cost per kWh of purchased power by applying the Utility's current wholesale, transmission and wheeling costs, less any revenues collected under the Electric Heat Energy Conservation Provision of this tariff, to billing quantities in the current billing period.

FACTOR OF ADJUSTMENT:

The factor of adjustment pursuant to Rule IX.D of the NYMPA generic tariff is 1.06163.
