

PSC NO: 8 GAS  
NATIONAL FUEL GAS DISTRIBUTION CORPORATION  
INITIAL EFFECTIVE DATE: 02/28/07

LEAF: 266.1  
REVISION: 5  
SUPERSEDING REVISION: 4

## SERVICE CLASSIFICATION No. 19

SUPPLIER TRANSPORTATION, BALANCING AND AGGREGATION - Continued

- (v) Suppliers will respond to any other instructions during other times of the year to flow gas on their Critical Capacity as needed to serve their customer requirements.
- (vi) Suppliers failing to meet upstream delivery requirements pertaining to Critical Capacity will face consequences including but not limited to discontinuance of STBA service.
- (vii) Suppliers intending to switch from Critical Capacity to that provided under Section 2.(3) above, to the extent available, will be required to declare such intention to the Company by April 1 and will be required to continue assignment of Critical Capacity until October 31.

Critical Capacity will be available in the quantity specified below from the Company's upstream capacity as follows:

<u>Upstream Pipeline Company</u>	<u>Dth/Day</u>
Tennessee FT-A: Zone 0 receipt and Zone 4 delivery	15,000
Tennessee FT-A: Zone 1 receipt and Zone 4 delivery	31,000
DTI South Point delivered to NFGSC	10,000
DTI GSS Storage with GSS-FT delivered to NFGSC	32,000
- MSQ of 1,664,000 Dth	

This capacity method shall terminate, and additional enrollments end, after total STBA enrollments reach 239,000 or enrollments under this method reach 128,000, whichever comes first.

## (4) Determination of Daily Delivery Quantities and Aggregate Daily Delivery Quantities

The Company shall determine, based upon each Customer's historical load profile and/or estimates of consumption, a Supplier's projected normalized consumption for a given period; either monthly, weekly, or daily. Consumption estimates may be adjusted in response to weather forecasts. Based upon this projected consumption, the Company will determine each Customer's DDQ and, by summing all DDQs of the STBA Customers in the Supplier's STBA Customer Group, the Supplier's STBA Customer Group's ADDQ. The DDQs and ADDQ so calculated will be used to determine the Supplier's daily City Gate delivery obligations, and the specific rates and charges as outlined in this Rate Schedule. ADDQ information shall be posted by the Company on the Company's internet web site, or such other medium as the Company deems appropriate.

A Supplier taking service under this Rate Schedule accepts the Company's calculation of the DDQ and/or ADDQ.

The Company shall not be liable for the difference between the projected consumption and the consumption determination by the Company.
