SERVICE CLASSIFICATION NO. 3

LARGE GENERAL FIRM SERVICE

Applicable to Use of Service For:

All purposes to customers whose use of gas is for industrial processing and related boiler fuel loads, and who contract for service in a written agreement that specifies a Contract Volume of not less than 200 Mcf per day to be made available at one location and through a meter capable of recording daily consumption and electronically transmitting such daily recording to the company. Annual minimum quantity of this Service Classification shall not be less than 365,000 therms.

Service under this Service Classification may be combined with interruptible service (sales or transportation) but may not be combined with any other firm service provided through the same meter.

Customers qualifying for service under this Service Classification may contract for either Sales or Reserved Unbundled Transportation Service available under this Service Classification and in accordance with the rules and regulations of company included in General Information.

Contract Volume and Billing Demand:

All customers taking service under this Service Classification must have entered into a contract specifying a Contract Volume. In the event that a customer exceeds such Contract Volume in the period December 1 through April 30 of any contract year, such actual maximum daily quantity shall be the billing demand for the entire applicable contract year, and the customer shall be charged, and shall pay accordingly for both the prospective use and for the use since the beginning of the current contract term.
