INITIAL EFFECTIVE DATE: 11/03/06 SUPERSEDING REVISION: 1  
STAMPS:

**Service Classification No. 13  
Temperature-Controlled Transportation Service (continued)**

**Special Provisions (continued):**

- b. The customer will permit access by Company's employees or representatives, at all times, to the consumer's premises for the purpose of:
  - 1) inspecting and testing all dual-fuel equipment and associated control devices, and
  - 2) measuring and verifying dual-fuel usage.
- 5. Customer's Responsibility:
  - a. The customer is solely responsible for the service, maintenance repair and upkeep of all dual-fuel equipment and all associated control devices.
  - b. The Company will not be responsible for:
    - 1) the adequacy of standby facilities, nor
    - 2) any loss, damage or expense, direct or indirect, which were incurred by the customer or others in connection with or as a result of any curtailment or discontinuance of gas service, nor
    - 3) any malfunction of said dual-fuel equipment and associated control devices, nor any consumption of gas when temperature falls below the specified temperature level for interrupting service.
  - c. The customer is responsible for the immediate manual switching from natural gas use to the alternate fuel if any control device fails to switch over to the alternate fuel when the temperature drops below the specified temperature level for interrupting service.
  - d. The customer is responsible for all telephone charges, including installation and maintenance, for communicating meter reading information to the Company by telemetering.
  - e. The customer will ensure that the telephone lines to the telemeter are operational at all times. Failure to maintain the operation of these lines will result in the discontinuance of service.
  - f. The Customer shall make all necessary arrangement, obtain all necessary regulatory approvals and be responsible for all costs including taxes to appropriate governmental entities for the acquisition and transportation of the customer's gas supply.
  - g. The Company reserves the right to accept only such applications under this Service Classification as will, in the Company's sole judgment, permit it to dispose of the gas and/or system capacity it has available for sale without requiring an unreasonable or uneconomic extension of facilities. If the required extension of facilities is uneconomic, the Customer may make such contribution as is needed to make it economic for the Company.
- 6. Meter Reading Devices: Remote and automatic meter reading devices ("telemetering") are required for all customers contracting for this service. This service is not available to subtractive metered accounts.
