

PSC No: 5 Gas  
Corning Natural Gas Corporation  
Initial Effective Date: 04/01/2008

Leaf: 70  
Revision 0  
Superseding Revision:

R. Restrictions and Limitations of Gas Service: 3. Gas Service  
Curtailments (Cont'd.)

- (b) Industrial and commercial space heating boiler fuel requirements, air conditioning, electric generation and other non-process purposes.
- (c) Industrial and commercial requirements for space heating (other than boiler fuel use).
- (d) Process and feedback requirements.
- (e) Plant protection requirements for customers curtailed in Categories a through d above.
- (f) Industrial and commercial requirements in firm service classifications.
- (g) Residential requirements in firm service classifications.

If the reason for the curtailment is in the Company's sole judgment due to a force majeure condition, the Company reserves its right to curtail service outside the order listed above in order to protect the efficient operation of its system.

Except for Category G, curtailment of all other Categories will be on the basis of size, with the largest customers being curtailed first.

6. The following provisions shall govern curtailments and notices of curtailment of transportation services resulting from a shortage of Hammondsport system capacity or a loss of deliverability by an interstate pipeline or Hammondsport upstream supplier which provides transportation service to Hammondsport.
  - (a) In the event of a transportation-capacity deficiency, curtailments and notices will normally be made according to the following priorities to the extent permitted by operating feasibility, with Priority 2 being curtailed before Priority 1:
