

C. Mains and Service Lines: (Cont'd.)

The amounts paid to government authorities for permits to do the work required and all paving charges that are legally imposed by any governmental authority for the repair or replacement of any street or sidewalk disturbed in the course of such installation.

Residential Applicant - Non-Heating

The material and installation costs relating to up to 100 feet of total main and service line (service line measured from the centerline of the public right-of-way, or from the main, if it is closer to the customer and if development will be limited to one side of the right-of-way for at least 10 years), service connections and appurtenant facilities, but not less than 100 feet of main if necessary, plus the length of service line necessary to reach the edge of the public right-of-way.

Residential Applicant - Heating

The material and installation costs relating to: (a) Up to 100 feet of main and appurtenant facilities; and (b) Up to 100 feet of service line (service line measured from the centerline of the public right-of-way, or from the main, if it is closer to the customer and if development will be limited to one side of the right-of-way for at least 10 years), service connections and appurtenant facilities; but not less than the length of service line necessary to reach the edge of the public right-of-way.

Non-Residential Applicant

The material and installation costs relating to: (a) Up to 100 feet of main and appurtenant facilities, and (b) Any service line, service connections and appurtenant facilities located in the public right-of-way.

4. Service Connection Fees:

If, in order to provide service to an applicant, the Company shall install service lines, service connections and appurtenant facilities in addition to those required to be provided without charge under Part II, Section C (3), the Company may impose a charge for material and installation costs at the following rates.

Size	Charge per foot
1/2 inch	\$6.00
