GENERAL INFORMATION

7. MAINTENANCE OF POWER FACTOR CORRECTIVE EQUIPMENT:

7.1 Customer who has installed power factor corrective equipment which has to be taken out of service periodically for maintenance or inspection will be permitted to disconnect such apparatus not more than four times per year, for periods of not more than twelve hours each, when such disconnection has been prearranged with and agreed upon by Company. The reactive demand which occurs during such agreed upon periods shall be disregarded in determining reactive demand charges.

8. RESALE, REMETERING OR SUBMETERING:

8.1 Except as hereinafter provided, electric service will not be supplied under any service classification of this rate schedule for resale, submetering, redistribution or other redistribution provided, however, that any customer may furnish electricity for the use of his tenants or for the use of other occupants of his premises provided that the customer shall not resell, make a specific charge for, or submeter or measure any of the electricity so redistributed or furnished.

8.2 Rule 8.1 does not apply to electric service supplied to an electric public utility.

8.3 Pursuant to 16NYCRR Part 96.2, the Company will supply electric service for resale or submetering for residential purposes under the appropriate service classification that would be applicable if the electric service were not being resold under the following conditions:

8.3.1 An applicant requesting a change from direct metering of individual residential customers to a master metered service for the purposes of submetering to the previously individually metered tenants for:

8.3.1.1 Residential cooperatives and condominiums where all tenants are shareholders and the prospective submetering has:

8.3.1.1.1 Certified in writing to the Company that seventy percent (70%) of the shareholders voted in favor of the submetering proposal; and
