

PSC No: 120 - Electricity
New York State Electric & Gas Corporation
Initial Effective Date: December 1, 2008

Leaf No. 117.13
Revision: 4
Superseding Revision: 3

GENERAL INFORMATION

25. Supply Service Options: (cont'd.)

I. Supply Service Options effective January 1, 2008 (cont'd.)

F. Customer Eligibility Exceptions:

1. Incentive Rate and Non-Incentive Rate Load:

Customers receiving an Economic Incentive for load qualified prior to July 1, 2003 shall be served under the NYSEG Fixed Price Option (FPO) rate for the load receiving such incentive (Incentive Load).

Customers receiving an Economic Incentive, for load qualified on or after July 1, 2003, may select a Supply Service option, for such qualified Incentive Load, as specified in the applicable Special Provision for Economic Incentives of the respective service classifications.

The Non-Incentive Load (defined as load that is not served under special contract, an economic incentive or discounted rate) can be served under any of the rate choices available to customers in the applicable service classifications. A customer who has Non-Incentive Load, in addition to Incentive Load that qualified on or after July 1, 2003, may select a different Supply Service option for the Non-Incentive Load than for the Incentive Load, unless prohibited by the terms of the Special Provisions for the customer's economic incentive. Such customers eligible to choose more than one Supply Service option, but who choose only one option for their account at the time of enrollment, will have that selected option applied to all eligible usage on that account.

2. NYPA Customers

Customers who receive a portion of their Electric Power Supply from NYPA, (Expansion, EDP, HLFM, PFJ, Replacement or Preservation Power), with Standard Load (non-NYPA load), shall be permitted to take service under any Supply Service option for their Standard Load. The NYPA load will continue to be billed at the appropriate NYPA rate as specified in the Special Provision of Service Classification No. 7. If the NYPA allocation expires or is terminated, the customer will have 30 days to elect a Supply Service option for that load. If the customer does not elect a Supply Service option, the NYPA load will be billed at the appropriate default option.

3. Customers Applying for Service

Customers applying for service will have 60 days to elect a Supply Service option. If a customer applying for service does not elect a Supply Service option, NYSEG will bill the customer at the appropriate default option as explained in Section 25.I.H. When a customer contacts NYSEG with their choice, that Supply Service option will be applicable to usage on and after the next regularly-scheduled estimated or actual meter reading date after such contact.
