

PSC No: 120 - Electricity
New York State Electric & Gas Corporation
Initial Effective Date: March 1, 2006

Leaf No. 124
Revision: 9
Superseding Revision: 6

SERVICE CLASSIFICATION NO. 1 (Continued)

SPECIAL PROVISIONS:

(a) Seasonal Service:

This special provision is applicable only to customers served under the NYSEG Fixed Price Option (FPO) rate or the ESCO Option with Supply Adjustment (EOSA) rate.

Upon request, customers who, during a period of six or more consecutive months, make only occasional (compared to the balance of the year) or no use of electric service at their premises may have their service maintained throughout the period, not to exceed eight months, and will be billed for the kilowatt-hours consumed during this period at the unit price per kWh of:

Effective Date 01/01/07	NYSEG Fixed Price Option (FPO)	ESCO Option with Supply Adjustment (EOSA)
Delivery Charges (All kilowatt-hours, per kilowatt-hour)	\$0.0455	\$0.0455
Bill Issuance Charge	\$0.94	\$0.94
Transition Charge (All kilowatt-hours, per kilowatt-hour)	(\$0.0144)	(\$0.0144)
Commodity Charge (All kilowatt-hours, per kilowatt-hour)	\$0.0975	\$0.0975
Merchant Function Charge (All kilowatt-hours, per kilowatt-hour)	\$0.0013	N/A

The total bill, however, for the year shall in no case be less than \$168.00.

* The Transition and Commodity Charges for NYSEG's Fixed Price Option (FPO) may be revised every six months on April 1 and October 1 of each year to reflect increases in the cost of providing fixed commodity service. The revised Transition and Commodity Charges will be calculated using the methodology approved by the Commission in Case 05-E-1222. However, the re-calculated charges will only be utilized when the total of the Transition and Commodity Charges is higher than the total of Transition and Commodity Charges that became effective January 1 of the two-year Commodity Rate Period. Such revised charges will be applicable only to a customer who chooses or is placed on the NYSEG Fixed Price Option (FPO) or the ESCO Option with Supply Adjustment (EOSA), on or after the effective date of the revision. The revised charges will remain in effect for such customers through the end of the two-year Commodity Rate Period, regardless of whether the customer chooses the FPO or EOSA.

NYSEG will file such revised FPO charges with the Public Service Commission not less than three days prior to the effective date of the revised rate.

(b) Multiple Dwellings:

Two or more individual flats, apartments or dwelling units presently supplied service through one meter may be billed under this service classification.
