

PSC NO: 119 ELECTRICITY
NEW YORK STATE ELECTRIC & GAS CORPORATION
Initial Effective Date: 09/01/03

Leaf: 6
Revision: 0
Superseding Revision:

GENERAL INFORMATION

2. How Service May Be Obtained: (Cont'd)

B. Extension of Facilities:

(1) Corporation Obligation:

When a written request for service is made to the Corporation by an applicant whose property abuts on, or has access to, any public right-of-way (other than a controlled access highway) in which the governmental authority having jurisdiction will permit the Corporation to install and maintain facilities, the Corporation shall:

- (a) render the service requested in accordance with the provisions of this tariff;
- (b) furnish, place, construct, operate, maintain, and (when determined to be necessary by the Corporation or the Commission) reconstruct, or replace all electric facilities within public right-of-way and other right-of-way when the Corporation elects to use such right-of-way in lieu of constructing facilities within public right-of-way, at its own cost and expense, subject to the provisions of this tariff. These costs and expenses shall include the amounts paid to governmental authorities for permits to do the work required and any additional amounts paid for the right(s) to make such elective use of other rights-of-ways;
- (c) maintain, repair, and if necessary replace a service line, at its own expense, if the Corporation installed it and if installed by the customer, only to the extent that the Corporation contributed toward the installation of the service line, provided that any necessary easements are provided by the applicant or customer. The Corporation will maintain applicant installed distribution facilities beyond the public right-of-way to the extent required by 16 NYCRR Parts 98.4 and 98.5;
- (d) grant the appropriate footage allowance as required by Sections 2.B.(5) and 2.B.(6) of this tariff; and
- (e) conform to the provisions of 16 NYCRR Part 99 regarding line extensions in VSRs, where applicable. Refer to Section 2.B.(8) for additional information relating to VSRs.
