

Valley Energy, Inc.
New York Division

Superseding

P.S.C. No. 1 Gas
Original Leaf No. 64
Revised Leaf No. 0

GENERAL INFORMATION

13. Service: (Cont'd.)

D. Transfer of Gas Service:

In the event that a customer is authorized (by the Company or by the Public Service Commission, whichever is requested in each instance) to transfer an existing gas allotment to a different location, the customer must pay for all costs associated with the installation of a new service lateral or main extension, if these facilities do not exist at the new location.

This tariff provision is to be effective only when the Company has effective tariff leaves that prohibit the utility from attaching any new or increased gas service.

Exemptions from these rules may be granted by the Public Service Commission.

Minimum Insulation standards for Residential Construction of Buildings:

Gas service will not be provided to a new dwelling or to an existing dwelling for the purpose of converting to gas space heating unless the dwelling is in compliance with Part 233 of Title 16 of the Official Code of Laws and Regulations of the State of New York - Minimum Insulation Standards for the Provision of Gas & Electric Utility Service. Copies of the minimum standards are available at the Company office.

An applicant for expanded gas service to an existing dwelling for the purpose of supplying gas heat must provide to the Company a Certificate of Compliance in one of the forms prescribed below.

Date of Issue: Sept. 1, 2003 Date Effective: November 1, 2003
