2. Definitions applicable to this Schedule:

1. A "main" is a pipeline located on a public or private right-of-way which is generally available or used to transport gas to more than one service line.
2. A "service line" is the piping, including associated metering and pressure reducing appurtenances, that transports gas below grade from a main to the first accessible fitting inside the wall of a customer's building when a meter is located within the building; if a meter is located outside the building, the service line will be deemed to terminate at the outside of the building foundation wall.
3. "Public right-of-way" means the territorial limits of any street, avenue, road or way (other than a limited access thoroughfare) that is for any highway purpose under the jurisdiction of the State of New York or the legislative body of any county, city, town or village and is open to public use.
4. "Adjusted gas revenue" means the revenue realized from the applicable service classification rates and charges, minus revenue taxes, the minimum charge and the cost of gas.
5. "Cost" or "expense" shall include all labor, material and other definite charges applicable thereto, plus a reasonable percentage for engineering, purchasing and use of construction equipment.
6. An "applicant" is an individual, firm or partnership requesting the Company's service. Each individual residence, apartment or business location for which service is requested shall be counted as a separate application under these regulations. A residential applicant is any person who requests gas service at a dwelling for his or her residential use or the residential use by another person, for which the Company's effective tariff specifies a residential rate. For the purposes of the Home Energy Fair Practices Act, a residential applicant includes any person who requests gas service at a premises to be used as his or her residence or the residence of a third party on whose behalf the person is requesting service, as defined in 16 NYCRR 11.2(a)(3).
