

PSC No:4 Gas  
Corning Natural Gas Corporation  
Initial Effective Date: 10/01/2003

Leaf: 146  
Revision: 0  
Superseding Revision:

Service Classification No. 10

Applicable to the Use of Service for:

Large volume firm dual fuel transportation service to customers who meet the eligibility requirements for service under S.C. 2 to P.S.C. No. 4 - Gas when Corning Natural Gas Corporation (hereinafter called "Company") has facilities available and adequate for the load. Service under this Service Classification must be requested by a retail customer who has contracted to purchase gas from an alternate source. Such customers shall be limited to those requiring transportation for a minimum volume of 25,000 Mcf annually and have demonstrated to the Company's satisfaction the ability to utilize fuel oil as an alternate source of fuel.

Character of Service:

Firm transportation of end-use customer owned pipeline quality natural gas delivered to the dual fuel customer's existing service point. The Company will control the dispatch of such gas, and dispatch will be provided as requested by the Customer, except the quantity of gas delivered will be conditioned upon the availability of the Company's capacity to serve such customers.

Rate:

A rate of 1,000 cubic feet (Mcf) shall be established for each category of dual fuel customers, at the sole discretion of the Company, each month and shall be applicable to all gas transported under each category of this Service Classification. The dual fuel categories are based on the customer's alternate fuel type as follows:

Category A - No. 5 Fuel Oil  
Category B - All other Fuel Oil

The rates shall be filed with the Commission and available for public inspection at the Company office at least three (3) working days prior to the first day of the billing period for which the rate shall apply.

The rate per Mcf shall not be less than \$0.1000 nor greater than the S.C. No. 7 Transportation Rate. The rate so determined shall be increased in accordance with paragraph 14-A, Page 79. Above rates shall also be increased to include the take-or-pay surcharge described on page 74.

The customer's meter shall be read each time a rate adjustment is made so as to bill the consumption at the appropriate rate.

Billing shall be in accordance with General Information Section 24C.
