##### **MINIMUM DEMAND CHARGE:**

1. The minimum monthly demand charge is \$50.00, or
2. Where the customer's equipment and/or method of operation requires the installation of service facilities (transformers, etc.) in excess of that considered by the Company's engineers as required for normal utilization of service at the Company's option, the facilities shall be installed, and either:
  - a. A special service capacity shall be determined, based on the lower of either 80 percent of the transformer installation required, or 80 percent of the maximum 15-second load in kilovolt-amperes. Such service capacity multiplied by \$5.87 per kilowatt shall determine the Minimum Demand Charge and shall remain in force for each month until there is a change in the customer's equipment or method of operation; or
  - b. The customer may elect to pay the Company its costs for that portion of service facilities in excess of that considered as required for normal utilization of service, in which case, the Minimum Demand Charge shall be as provided for under Item 1 above.

##### **DETERMINATION OF BILLING DEMAND:**

1. The billing demand will be the measured maximum 30-minute integrated demand occurring during the monthly period for which bill is rendered.

All bills are rendered at the above rate. A late payment charge of one and one-half percent (1 1/2%) per month shall become due and payable if payment is not made on or before the "last day to pay" date specified on the bill in accordance with the provisions of Rule 4.C.2.

##### **TERM:**

One month and thereafter until terminated by three days' written notice. However, when the amount of investment required or other conditions of service are such as to warrant, the Company may, with the permission of the Public Service Commission, require that the initial term be longer than one month.
