

PSC No: 19 - Electricity
Rochester Gas and Electric Corporation
Initial Effective Date: July 1, 2003
Issued under authority of the Public Service Commission in Case 02-E-0198, issued and effective March 7, 2003.

Leaf No. 161.4
Revision: 0
Superseding Revision:

SERVICE CLASSIFICATION NO. 1 (Cont'd)

RESIDENTIAL SERVICE

Commodity Service

The charge for Electric Power Supply provided by RG&E will fluctuate with the market price of electricity and will include the following components: energy, capacity, capacity reserves, line losses and unaccounted for energy. Customers will be charged for energy based on their class deemed load shape using day-ahead prices. They will be charged for capacity based on their class deemed contribution to peak using the monthly NYISO capacity auction price, including an appropriate adder for capacity reserve responsibility. Customers will be charged for losses by multiplying the energy and capacity costs by a loss factor.

In the event that RG&E determines that it will incur an estimated gain or loss because purchases for these customers were made in the real-time market at prices differing from those in the day-ahead market, RG&E will credit or recover the full amount of the estimated gain or loss through the NBC from VPO customers.

System Benefits Charge:

All kilowatthours, per kWh

Per SBC Statement

Retail Access Credit Surcharge:

All kWh, per kWh:

\$.00105

Increase in Rates and Charges:

The rates and charges under this Service Classification, including any adjustments, systems benefits charge and minimum charge, are increased by the applicable effective percentage shown in Rule 4.J. for service supplied within the municipality where the customer is taking service.
