

PSC No: 17 - Gas
Rochester Gas and Electric Corporation
Initial Effective Date: June 1, 2003

Leaf No. 115
Revision: 0
Superseding Revision:

SCHEDULE A

GAS SERVICE-POINT DISTRIBUTION SERVICE (Cont'd)

SPECIAL PROVISIONS (Cont'd):

B. Service Classification No. 4 - General Service - Economic Development (Cont'd)

2. Eligibility Criteria (Cont'd)

- b) The Retail Customer or Direct Customer adds at least 50,000 therms of annual load to the Distribution Provider's system by (a) constructing a new facility; or (b) expanding an existing facility; or (c) adding facilities or equipment to an existing site; or (d) adding facilities (regardless of size) through the redevelopment of a vacant or inactive site, including land or buildings which have been previously developed and have been vacant or inactive for at least six months and which are proposed for reuse or redevelopment with the assistance of public financing; or (e) developing facilities or projects (regardless of size) which are located in areas eligible to receive Urban Development Action Grants, and
- c) The Retail Customer or Direct Customer has a viable option to locate its facility or equipment outside the Distribution Provider's gas service territory, and provides evidence to the Distribution Provider's satisfaction of such an option, subject to an agreed-upon confidentiality agreement, and
- d) The Distribution Customer shall apply for service under this Service Classification prior to the addition by the Retail Customer or Direct Customer of load as described in Requirement (b) above.

3. Load Eligible for Rate

The gas to be delivered under this Service Classification will be determined by subtracting from the total metered gas consumption a base amount to be determined using a historical period. The Distribution Provider reserves the right to require submetering of the additional load.

4. Pricing

The specific pricing for service under this Service Classification will normally be determined under Option A, described below. At the Distribution Provider's option, the specific pricing may be determined under Option B.

Option A

The Distribution Customer will receive a discount five percent from the stated rates under the SC No. 3 – Large General Service 1,001 - 30,000 therm block and the 30,001 - 100,000 therm block, as shown in Appendix A. The discount shall apply for a period of five years from the date service commences.

or,

Option B

The specific pricing will be stated in an individually negotiated Service Agreement executed for each Retail Customer or Direct Customer service point. The charges contained in any negotiated Service Agreement shall be set at a level no lower than the incremental costs the Distribution Provider incurs plus \$.01 per therm. The specific charges for service under this Service Classification will be shown in the Service Agreement as stated below.
