

PSC No: 20 - Electricity  
Rochester Gas and Electric Corporation  
Initial Effective Date: June 1, 2003

Leaf No. 169  
Revision: 0  
Superseding Revision:

## SCHEDULE A

### SERVICE-POINT DISTRIBUTION SERVICE (Cont'd)

#### SPECIAL PROVISIONS: (Cont'd)

##### Service Classification No. 4 - Time-of-Use Residential Service (Cont'd)

2. **Character of Service:** 120/240 or 120/208 volts, single phase. Three phase service will not be rendered under this Service Classification, except as noted under Service Classification No. 1
3. **Rate:** Retail Customers with annual consumption up to 24,750 kWh will be served under Rate Schedule I. Retail Customers with annual consumption exceeding 24,750 kWh will be served under Rate Schedule II.
4. **Definition of Hours:**  
Peak Hours: Peak hours are defined as the hours between 7:00 am and 9:00 pm, Monday through Friday.  
Off-peak hours: All remaining hours.
5. **Nonresidential Use:** In buildings primarily intended for residential purposes where not more than two rooms are used for business or for professional purposes, this classification will apply to both uses, provided the total connected load of such nonresidential use does not exceed 2,000 watts.
6. **Multiple-family Dwelling:** In multiple-family dwellings, with not more than four family units, where each living unit is separately metered and billed on this classification, the incidental electricity used in common by all of the residents, such as hall, cellar or stair lighting, (but excluding water heating, space heating, air conditioning, laundry equipment and the like), may be served under this classification if metered with the use of one of the residential units.
7. **System Benefits Charge:** The rates and charges under this Service Classification are increased by the applicable system benefits charge, as mandated by Public Service Commission Order, shown in the System Benefits Charge Statement.

##### Service Classification No. 7 General Service - 12 Kilowatts Minimum

1. **Applicable to Use of Service For:** All purposes, in entire control area, by any Retail Customer with a billing demand of not less than 12 kilowatts or whose consumption exceeds 3,000 kilowatthours in each of four consecutive monthly billing periods.
2. **Minimum Demand Charge:** The minimum monthly demand charge is \$51.65; except where the Retail Customer's equipment and/or method of operation requires the installation of service facilities (transformers, etc.) in excess of that considered by the Distribution Provider's engineers as required for normal utilization of service, in which case the Distribution Provider shall install such facilities, and either:
  - a. A special service capacity shall be determined, based on the lower of either 80 percent of the transformer installation required, or 80 percent of the maximum 15-second load in kilovolt-amperes. Such service capacity shall remain in force for each month until there is a change in the Retail Customer's equipment or method of operation and, multiplied by \$5.23 per kilowatt, shall equal the monthly Minimum Demand Charge.
  - b. The Distribution Customer may elect to pay the Distribution Provider its Costs and Expenses for the installation of that portion of service facilities in excess of that considered as required for normal utilization of service. In such case, the monthly Minimum Demand Charge shall be \$51.65.
