

PSC No: 17 - Gas
Rochester Gas and Electric Corporation
Initial Effective Date: June 1, 2003

Leaf No. 20
Revision: 0
Superseding Revision:

GENERAL INFORMATION

PART II - RULES AND REGULATIONS

1. DEFINITIONS AND ABBREVIATIONS (Cont'd)

Voluntary Switch: A process or situation where a Retail Customer's Distribution Customer is transferred from one Distribution Customer to another or from one Distribution Customer to the Distribution Provider with the Retail Customer's direct authorization.

Weighted Average Cost of Capacity: The Distribution Provider's cost of pipeline capacity upstream of the Distribution Provider's Citygate.

Weighted Average Cost of Gas: The Distribution Provider's total cost of gas upstream of the Distribution Provider's Citygate, divided by the total amount of gas supplied by the Distribution Provider. The cost is comprised of the commodity cost of gas, all pipeline capacity costs and all storage capacity costs.

16 NYCRR: Title 16 of the Codes, Rules and Regulations of the State of New York. The regulations contained in this Title, issued by the Department of Public Service, govern the practices and operations of public utilities in New York. Numerical suffix denotes section or part.

Abbreviations:

Btu -	British thermal units
cu ft -	Cubic foot or cubic feet
Ccf -	One hundred cubic feet
Dt -	Dekatherm (ten therms)
DPS -	Department of Public Service
FERC -	Federal Energy Regulatory Commission
GAAP/FASB -	Generally Accepted Accounting Principles/Financial Accounting Standards Board
Mcf -	One thousand cubic feet
PSC -	Public Service Commission
