GENERAL INFORMATION

PART II - RULES AND REGULATIONS

4. OPERATIONAL ISSUES

A. FORECASTING

The Distribution Customer is responsible for providing the required forecasts to the NYISO in accordance with the NYISO Transmission Tariffs and any applicable NYISO operating manuals. The Distribution Customer shall provide a copy of all such forecasts to the Distribution Provider in accordance with the Distribution Provider's Distribution Customer Manual.

System load data will be provided weekly to the Distribution Customer in the form of hourly energy consumption for each day of the reporting period.
