PSC No: 20 - Electricity

Rochester Gas and Electric Corporation Revision: 0
Initial Effective Date: June 1, 2003 Superseding Revision:

GENERAL INFORMATION

PART II - RULES AND REGULATIONS

1. DEFINITIONS AND ABBREVIATIONS (Cont'd)

Distribution Customer Application: A written request by an Applicant to receive service pursuant to the provisions of this Tariff.

Distribution Line: A system of poles or conduits, wires or cables, transformers, fixtures and accessory equipment that is used or may reasonably be expected to supply service to more than one customer premise.

Distribution Operating Agreement (DOA): An executed agreement that contains the terms and conditions under which the Distribution Customer shall operate with the implementation of this Tariff and the NYISO's Transmission Tariffs.

Distribution Point(s) of Delivery: Point(s) on the Distribution System where the Distribution Provider delivers electric Energy .

Distribution Point(s) of Receipt: Point(s) at which the Distribution Provider receives electric energy on the Transmission and/or Distribution System from other sources.

Distribution Provider: A company that maintains and operates an electric Distribution System for the delivery of electric Energy. Under this Tariff, the Distribution Provider is Rochester Gas and Electric Corporation.

Distribution Service: The act of distributing electric energy from a point(s) of receipt to a point(s) of delivery on the Distribution System.

Distribution System: The facilities owned, controlled or operated by the Distribution Provider that are used to provide Distribution Service under this Tariff.

Elementary Diagram: A One Line Diagram that also shows the connections of protection and control components. The devices in switching equipment are referred to by numbers based on a system adopted in IEEE C37.2.

Emergency Service Call: A request for service to be rendered by the Distribution Provider involving an electrical power outage or interruption or a threat to the health or safety of property.

Energy: A quantity of electricity bid, purchased, sold, or transmitted over a period of time, and measured in Megawatthours (MWH) or kilowatthours (kWh). One MWH = 1,000 kWh.

Energy Services Company (ESCO): See "Distribution Customer".

Energy Supplier: See 'Distribution Customer".
