**GENERAL INFORMATION**  
**7. FORMS (Cont'd)**

**B. GENERAL SERVICE APPLICATION FORM**

	<b>General Service Application</b>	Page 2
---	------------------------------------	--------

**SELECTION OF SERVICE CLASSIFICATION (Completed by Applicant)**

The questions that follow are designed to assist RG&E in placing you on the proper and most beneficial service classification. THE INFORMATION YOU SUPPLY WILL BE USED TO DETERMINE WHAT SERVICE CLASSIFICATION YOU ARE ELIGIBLE FOR. The information may also be used to determine service requirements. There are several different service classifications. Each service classification has eligibility requirements and term limits. You may be eligible for service under more than one service classification. Costs vary for each service classification and one service classification could be more beneficial to you than another. A complete description of all service classifications and their terms are listed in RG&E's Gas and Electric Tariffs. RG&E's Tariffs are available for inspection at any RG&E office. Any questions concerning service classifications may be discussed with an RG&E customer service representative. If the information provided on this application is inaccurate or incomplete, you may be subject to backbilling on the correct service classification or precluded from receiving a refund for any overcharges. Should there be any change in your usage or equipment at a future time, you must notify RG&E to assure that you are being billed under the proper service classification. Additional forms may be needed for some service classifications or if new facilities must be constructed.
