

PSC NO. 3 GAS  
St. Lawrence Gas Company, Inc.  
Initial Effective Date: 06/04/2004

Leaf: 45  
Revision: 0  
Superseding Revision:

## GENERAL INFORMATION

### 2. General Rules, Regulations, Terms and Conditions: (Cont'd)

#### III. Metering, Billing, Discontinuance of Service and Complaints: (Cont'd)

##### A. Metering and Billing: (Cont'd)

##### 5. Fixed Factor Measurement (Cont'd)

Where:  $P_b$  = Average Barometric Pressure  
(Measured in pounds per square inch Absolute, or  
PsiA)

$P_m$  = Metered Pressure (Measured in pounds per  
square inch gauge, or Psig)

$P_B$  - Base Pressure (14.73 PsiA)

The correction detailed above may be performed at the meter (through industry approved index gearing or electronic factoring) or by applying the pressure correction multiplier when calculating the gas bill.

Where the average barometric pressure varies by more than 0.10 pounds per square inch absolute within the company's franchise system, the average barometric pressure for that geographic location shall be calculated based on that location's elevation above sea level.
