

PSC No: 120 - Electricity
New York State Electric and Gas Corporation
Initial Effective Date: December 1, 2003

Leaf No. 279
Revision: 0
Superseding Revision:

SERVICE CLASSIFICATION NO. 10 (Continued)

RATE TO BE PAID BY THE CUSTOMER: (Per Month) (Cont'd)
Demand Charge: (Cont'd)

For Distribution

For a customer served at a Secondary or Primary distribution voltage there will be a charge for each kW of Contract Demand provided hereunder in excess of any maximum annual demand taken under the applicable Service Classification. For a non-demand measured Service Classification such maximum annual demand taken will be determined at the time that application for this classification is made. Such determination will be made on the basis of the applicable class relationship of noncoincident demand to energy consumption.

	Unit <u>Price</u>
<u>Contract Demand</u>	
Primary, per kW	\$ 1.51
Secondary, per kW	1.91

MINIMUM CHARGE:

The minimum charges for service under this Service Classification is the applicable Demand Charge for Distribution plus (a) the Metering Charge for a customer also taking service under another applicable Service Classification; or (b) the Customer Charge for a customer solely taking service under this Service Classification.

INCREASES IN RATES AND CHARGES:

The rates and charges to customers under this Service Classification, including fuel adjustment and minimum charges, will be increased by a surcharge pursuant to Section 6 of P.S.C. No. 120 to reflect the tax rates applicable within the municipality where the customer takes service.

DETERMINATION OF DEMAND:

For a customer interconnected at Secondary or Primary voltage there will be a charge for each kW of Contract Demand provided hereunder in excess of any maximum annual demand taken under the applicable Service Classification under which the Corporation provides service.

The Contract Demand initially will be the excess in the kilowatts of sales to the Corporation and the kilowatts purchased by the customer in the customer's application for service hereunder and shall be automatically increased based on the highest average kilowatts metered in a 15-minute interval during the month.
