

PSC No: 19 - Electricity  
Rochester Gas and Electric Corporation  
Initial Effective Date: March 1, 2004  
Issued under the authority of the PSC in Case Nos. 02-E-0198 and 02-G-0199, issued and effective March 7, 2003

Leaf No. 233  
Revision: 1  
Superseding Revision: 0

## SERVICE CLASSIFICATION NO. 12

### POWER FOR JOBS (Cont'd)

#### PRICING:

The price to be paid by the customer under this Service Classification shall include the following components: NYPA charges for power, energy and transmission (including any minimum demand charge), which are to be billed by NYPA to the Company and passed on to the customer; the Company's demand charge for delivery, which shall vary by Parent Service Classification; a separate Monthly Customer Charge which shall reflect the Company's incremental billing and administrative costs associated with providing Power for Jobs service; and, to the extent that not all of the customer's electric requirements are supplied by a Power for Jobs allocation, the cost of such service that is not provided by NYPA, billed at rates and charges applicable to the Parent Service Classification.

Power for Jobs customers shall be subject to NYPA charges, delivery charges and a monthly customer charge, as more fully described below.

#### Demand Exceeding the Power for Jobs Contract Demand:

To the extent that a customer's maximum billing demand for the current month exceeds its Power for Jobs Contract Demand, the customer's billing determinants shall be allocated between NYPA and the Company or the ESCO as described below in the section denominated "Load Factor Sharing." The NYPA charges described below shall apply to the NYPA Billing Demand and Energy. The non-NYPA charges shall be the Retail Access Rate or the Non-Retail Access Rate of the Parent Service Classification.

#### Rate Choices Available to Customers:

Pursuant to Rule 11, General Retail Access – Multi-Retailer Model, of this Schedule, customers served under this Service Classification will choose either a Retail Access Rate or a Non-Retail Access Rate for any non-PFJ portion of their load.

#### Retail Access Rate:

RG&E will provide Delivery Service under the Retail Access Rate. Commodity Service will be provided by an ESCO. The Retail Access Rate of the Parent Service Classification for the non-PFJ portion of the Customer's load is equal to the Non-Retail Access Rate of the Parent Service Classification for the non-PFJ portion of the Customer's load minus (1) a Retailing Backout Credit of \$0.004 per kWh of the Parent Service Classification for the non-PFJ portion of the Customer's load, and (2) the Market Based Backout Credit (MBBC) as described in Rule 11.C.13 of this Schedule of the Parent Service Classification for the non-PFJ portion of the Customer's load.

#### Non-Retail Access Rate:

RG&E will provide Delivery and Commodity Service under the Non-Retail Access Rate.

#### NYPA Charges:

The Company shall charge the customer for demand and energy at rates equal to those charged by NYPA to the Company for power delivered under the Power for Job program. These charges shall include the cost of transmission and ancillary services to the Company's distribution system.

Because the rates charged by NYPA to the Company may be revised by NYPA upon 30 days' prior written notice, the Company has the corresponding right to reflect such changes automatically as they occur, without prior notice to the customer. The Company shall notify the customer of any such change in the next billing for which such notification is feasible.
