GENERAL INFORMATION

6. INSTALLATION OF MAINS, SERVICE CONNECTIONS AND FACILITIES AND EXTENSIONS: (CONT'D)

C. Charges for Additional Facilities: (Cont'd)

- (d) Each surcharge shall cease:
 - (i) whenever the length of a main extension required to be provided without charge to all customers served from such extension shall equal or exceed the total length of such extension;
 - (ii) whenever the total adjusted gas revenue from all customers served from a main extension shall equal or exceed forty percent (40%) of the cost of such extension in excess of that required to be provided without charge, in each of any two (2) consecutive calendar years; or
 - (iii) after a period of ten (10) years following its commencement.
- (e) Should the adjusted gas revenue from all customers served from a main extension exceed the carrying cost of the entire extension, any surcharges (or contributions) paid by such customers during the preceding five (5) years shall be refunded to such customers.
- (f) No surcharge shall be imposed if the total adjusted gas revenue from all customers served from a main extension is estimated to exceed forty percent (40%) of the actual reasonable cost of such extension in each of any two (2) consecutive calendar years.
- (g) In lieu of a surcharge, the applicant, upon mutual agreement with the Company, may provide a cash contribution or other equitable arrangement equal to the cost of the main extension in excess of 100 feet distance (per applicant) from the end of the nearest main appropriate to the service requested.
 - (i) Whenever more than one (1) customer is initially connected to the extension, the cash contribution shall be reasonably allocated to the several customers served from the extension.
 - (ii) Should additional customers be connected to said main extension during the initial ten (10) year period from the date placed in service, a prorata refund will be made for the cost of that additional portion of main extension which Company would have allowed without charge or surcharge.
