**SERVICE CLASSIFICATION NO. 7**

**ALTERNATE FUEL DISPLACEMENT SERVICE**

**APPLICABILITY:**

Throughout the territory served under this Schedule.

**AVAILABILITY OF SERVICE:**

This service classification is available to any commercial or industrial Buyer, provided:

- (A) The Buyer's requirements for gas shall not be less than 200 Dth per day based on average daily usage during the peak month; and
- (B) The capacity of the Company's facilities and the available gas supply are sufficient to provide the quantities requested by the Buyer; and
- (C) Buyer has submitted to the Company an initial affidavit which provides the following information:
  - (1) Name and address at which service under this service classification will be received; and
  - (2) Buyer has installed operable capability for long term use of an alternate fuel and has made available to the Company the option of onsite inspection of the alternate fuel facilities; and
  - (3) Buyer's verification that gas purchased under this service classification will be utilized to reduce or eliminate alternate fuel requirements and, that such gas will not replace non-alternate fuel requirements which would otherwise be purchased under Company's applicable service classification; and
- (D) Buyer submits to the Company a monthly affidavit on or before the fifth (5th) day of the billing period providing the following information:
  - (1) Prior month usage of displacement service unless separately metered; and
  - (2) Projected month alternate fuel pricing and estimated usage.
