SERVICE CLASSIFICATION NO. 5  
GAS TRANSPORTATION SERVICE (continued)

### 3.1 Maximum Delivery Quantity MDQ:

For customers not participating in Service Classification No. 11, prior to the beginning of each month, Niagara Mohawk will notify the Customer of their MDQ for the upcoming month. The Customer will then have the right to request a change in their MDQ. Customers may request changes to the MDQ during the month but such changes will be made at the sole discretion of Niagara Mohawk. Niagara Mohawk has the right to change the MDQ during the month on notice to the Customer no later than 3:00 p.m. Eastern Time on the second day prior to the effective date of the change. For any deliveries in excess of the MDQ during the month the Company may reject the excess nomination or purchase the excess quantities at the following prices:

Daily  
Imbalance Payment Per Therm

0 to 2%	WACCOG
>2% to 10%	90% of WACCOG
>10% to 15%	80% of WACCOG
>15% to 20%	70% of WACCOG
>20%	60% of WACCOG

WACCOG is equal to the Average Commodity Cost of Gas as defined in Rule No. 17.10.3.1.

### 3.2 Cashout:

For customers not participating in Service Classification No. 11 over/under deliveries will be subject to a monthly cashout in accordance with Rule 29 of this tariff. During any period in which the Company's ability to accommodate imbalances is restricted or impaired, Niagara Mohawk may, upon eight hours advance notice, impose a Forced Balancing Operational Flow Order ("Forced Balancing OFO"). When a Forced Balancing OFO is imposed for underdeliveries, usage must not exceed deliveries by more than 2-15% as specified in the OFO. When a Forced Balancing OFO is imposed for overdeliveries, deliveries must not exceed usage by more than 2-15% as specified in the OFO. Customer will be assessed a penalty of \$2.50 per day, per therm for imbalances that exceed the OFO limit. Forced Balancing OFO\*s will not be used to simultaneously restrict overdeliveries and underdeliveries.
