(*) Not available for new installations

FACILITIES

Wood Poles	\$2.88
Units of Overhead Circuit (per 150 Feet)	.85

PURCHASE POWER ADJUSTMENT (PPA)

The charges set forth herein shall be subject to a PPA per kWh billed hereunder when changes in the base cost of power occur as described in NYMPA generic tariff Rule IX.

The electric service is not metered monthly; an estimate of the kWh's used will be determined by the MED. The estimated monthly energy used in light fixtures with photoelectric cells will be determined by multiplying the wattage for the total lamps installed by the number of burning hours of the particular month shown below and dividing the resultant by 1,000 to achieve the monthly kWh's used.
