SERVICE CLASSIFICATION NO. 8
Seller Service (continued)

Monthly Standby Gas Service rates and charges are as follows:

Standby Demand Charges applicable to customers eligible to take service under Service Classification Nos. 1, 2 and 3:

Standby Gas Demand Charge \$.009 per therm applied to the Customer's maximum monthly ADDQ multiplied by 30.

Standby Commodity Gas Charges:

For all customers subscribing to Standby Gas Service, a commodity charge equal to the Company's Actual Monthly ICOG will be applied to each therm of gas actually supplied by the Company.

City Gate Balancing:

Customer shall be responsible for delivery each day to the Company of a quantity of gas equal to the ADDQ.

- A) Each day, Customer shall nominate and schedule deliveries of gas to the Company in an amount equal to the Customer's ADDQ. If the total quantity of gas delivered by Customer to the Company on any day is within $\pm 2\%$ of Customer's ADDQ for such day, and Customer has met its nomination and scheduling obligations hereunder then,
- 1) In the event that the total quantity of gas delivered is more than Customer's ADDQ, the company shall credit the Seller a per therm amount equal to the Company's Daily Commodity Cost of Gas multiplied by the difference between (i) the total quantity of gas delivered by Customer to the Company on such day and (ii) Customer's ADDQ for such day, bringing the imbalance in Customer's ADDQ to zero each day.
 - 2) In the event that the total quantity of gas delivered is less than Customer's ADDQ, Seller shall pay the Company a per therm charge equal to the Company's Daily ICOG multiplied by the difference between (i) Customer's ADDQ for such day and (ii) the total quantity of gas delivered by Customer to the Company on such day, bringing the imbalance in Customer's ADDQ to zero each day.
- B) If the total quantity of gas delivered by Customer to the Company on any day is more than 2% greater or less than Customer's ADDQ or the Customer has not met its nomination and scheduling obligations, for such day then,
- 1) In the event that the total quantity of gas delivered to the city gate is more than 102% of the Customer's ADDQ, a penalty charge equal to \$1.00 per therm will be applied to deliveries in excess of 102% of the Customer's ADDQ. A \$2.50 per therm penalty charge will be applied for over-deliveries in excess of 2% of the applicable DDQ or ADDQ on critical days for gas supply. This amount will be reduced by an amount equal to the deliveries in excess of the Customer's ADDQ multiplied by the Company's Daily Commodity Cost of Gas, bringing the imbalance in the Customer's ADDQ to zero each day.
