GENERAL INFORMATION

1. DEFINITIONS: (CONT'D)

Daily Balancing Pool shall mean a pool comprised of daily metered transportation customers who have chosen to balance deliveries to the Company to the consumption of Customers on a daily basis.

Monthly Balancing Pool shall mean a pool comprised of daily metered transportation customers who have chosen to balance deliveries to the Company to the consumption of Customers on a monthly basis.

Pool Operator shall mean an individual or entity responsible for causing the natural gas supplies to be delivered to the Company on behalf of daily metered transportation customers necessary to satisfy the full requirements of the Pool. Individual customers acting solely on their own behalf, and who are not part of a third party Pool, will bear the responsibilities of a Pool Operator as set forth in this tariff.

Pooling Area shall mean an area defined as a Company operational area served, generally, by a single interstate pipeline. Pooling areas shall be defined, designated, and/or modified on a prospective basis, in the Company's reasonable discretion and shall be posted on the Company's Electronic Bulletin Board (EBB).

Pool shall mean aggregated deliveries for one (1) or more customers of natural gas for each Pooling Area which a Pool Operator establishes under the Gas Pooling Agreement.

Pooling shall mean the ability of the Pool Operator to aggregate natural gas supplies delivered to the Company's distribution systems by such Pool Operator to satisfy the full requirements of two (2) or more daily metered transportation customers of the Company which daily metered customers have assigned their right and duties to balance under the Company's tariff to said Pool Operator.

Imbalance Trading shall mean the transfer of gas delivered to the Company from one Pool Operator to another Pool Operator.

Maximum Daily Pooling Quantity (MDPQ) shall mean the sum of the applicable winter or summer Maximum Daily Transportation Quantities of all the customers in a Pool.
