GENERAL INFORMATION

17. WEATHER NORMALIZATION ADJUSTMENT (WNA):

A. Applicability:

- (1) The WNA will be applicable to all space heating customers, except as otherwise set forth herein, taking service pursuant to Service Classification Nos. 1, 2, 8, and 9 of PSC No. 87 Gas, or superseding issues thereof, and Service Classification Nos. 1, 4, 5, 13 and 14 of PSC No. 88 Gas, or superseding issues thereof.
- (2) A firm industrial revenue class customer, taking service pursuant to a tariff that imposes the WNA, will be deemed a space heating customer if more than 50% of such industrial customer's annual usage is experienced in the period November 1 through March 31.
- (3) The WNA will be applied to the total gas usage during the WNA season of October 1 through May 31 of each year.

If only a portion of customer's total gas usage is applicable to the WNA season, then the WNA will be adjusted to reflect the portion applicable to the WNA season.

- (4) The WNA will only be billed if the actual heating degree days for the billing cycle are less than 97.8% or more than 102.2% of the normal heating degree days for the billing cycle. In such cases, the WNA will be based on the variation that is less than 97.8% or more than 102.2% of the normal heating degree days for that billing cycle.
