The Company assumes no responsibility for the adequacy of any dual-fuel or alternate energy facilities and shall not be liable for any loss, damage, or expense, direct or indirect, which may be incurred by the Customer or others in connection with or as a result of any curtailment, interruption, or discontinuation of gas service, unless there is a separate agreement between the Customer and the Company that establishes such responsibility.

If the Company estimates that net revenues received from an applicant for new service or a Service Classification Nos. 1, 2, 3, or 13 Customer transferring to this service over the initial two-year period will enable the Company to recover fully its facility costs, the Customer shall not be required to pay in advance the costs to be incurred or previously incurred by the Company covering:

- (a) provision and installation of metering and communication equipment as may be or was specified by the Company, and
- (b) all main extensions or reinforcements, service pipes, service connections, and other facilities in any street, avenue, road, or way as may be or were necessary to render service.

A Service Classification Nos. 1, 2, 3, or 13 Customer transferring to this service after taking firm sales service for a minimum of five years shall not be required to pay any costs except the incremental costs associated with providing this service.
