SECTION 2 - DETERMINATION OF SERVICE CLASSIFICATION AND REQUIREMENTS

The questions on these pages are designed to assist us in placing you on the proper and most beneficial service classification. The information you supply may be used to determine what service classification you are eligible for. The information may also be used to determine service requirements. Please review the General Service Classifications listed below. There are eligibility requirements for each classification and you may be eligible under more than one. Costs vary under different service classifications; however, one classification may be more beneficial to your business than another. A complete description of all service classifications may be found in O&R's filed Tariff, which is available for inspection at every Regional Office and Customer Service facility. Any questions regarding service classifications may be discussed with a Representative. If the information provided on this application is inaccurate or incomplete, the customer may be subject to backbilling on the correct service classification or precluded from receiving a refund for any overcharges. Should there be a change in usage or equipment at a future date, you must notify us to assure billing under the proper service classification.
