Alternative Billing Arrangements (continued)

Bill Content

- (1) The total of the budget bills rendered from the beginning of the budget plan year to the end of the period covered by the current bill;
 - (2) The amount of the difference (credit or debit) between the budget charges for the bills rendered from the beginning of the budget plan and the actual charges assuming the customer was not subject to budget billing upon payment of the billed amounts.
- e. Regardless of the entity selected by the customer to render a single bill, the following data elements shall be displayed on the Company's portion of a single bill for Non-Residential Service Bills:
- (1) The address and location of the premises where the service was supplied;
 - (2) The unit of measure;
 - (3) An explanation of any calculations or factors used in calculating charges; and
 - (4) An explanation of any abbreviation or symbol used that is not common English usage.
- f. Regardless of the entity selected by the customer to render a single bill, the following data elements shall be displayed on the Marketer portion of a Consolidated Bill for all bills:
- (1) The name of the Marketer;
 - (2) The Marketer account number for the customer;
 - (3) Taxes as a separate line item;
 - (4) The price per unit and number of units for each product or service;
