SERVICE CLASSIFICATION NO. 14

INTERRUPTIBLE TRANSPORTATION SERVICE TO ELECTRIC GENERATION FACILITIES

(Cont'd)

SPECIAL PROVISIONS (Cont'd)

- 14.12 Customers relying on distillate fuel as their alternate fuel must maintain standby facilities and a fuel reserve that will support ten (10) days of the customer's energy requirements and have arranged for fuel deliveries during curtailments that are longer than ten (10) days. The customer's alternate fuel reserve inventory must be in place on or before November 1. Customers with storage facilities that cannot maintain the required fuel reserves must provide documentation confirming that they have arranged to have fuel deliveries during curtailment periods.
- 14.13 If the Company curtails service and the Customer is not able to meet requirements of the curtailment, the Company will charge the Customer a curtailment charge for all gas consumed by the Customer until the Customer is able to meet the requirements of a curtailment. The curtailment charge for gas consumed will be \$2.50 per Ccf.
- 14.14 If a customer fails to meet the alternate fuel reserve requirement, the Company will charge the customer the greater of the market price of the customer's alternate fuel or 110% of the applicable tariff rate for natural gas service for all gas consumed until the customer is able to meet the alternate fuel reserve requirement. The daily alternate fuel market price will be as published in Platt's Oil Gram US Market Scan or on Bloomberg's Energy Online platform. The customer may be billed back to and including November 1 and until the point the customer complies with the tariff requirements.
- 14.15 Prior to November 15 of each year, the Company will institute an annual system curtailment. Customers will be notified by registered mail that the Company will be conducting a system curtailment. The notification letter will also request information concerning the Customer's alternate fuel supply and arrangements for deliveries during actual curtailment periods. Customers must reply to the request for information within thirty (30) days of receipt. Failure to reply will subject the Customer to the Company's curtailment charge. In addition, if for any reason the Customer is not able to curtail usage during the annual system curtailment, the Customer will be subject to the Company's curtailment charge, as described above, for all gas consumed by the Customer until the Customer is able to meet the requirements of a curtailment.
