SPECIAL PROVISIONS (Cont'd)

3.3 CURTAILABLE ELECTRIC SERVICE (Cont'd)

- i) The Company reserves the right to discontinue availability of this Special Provision to any customer whose curtailment performance is unsatisfactory, in the sole judgement of the Company. Performance will be determined to be unsatisfactory if the customer's rate of compliance with notice of curtailment is less than 50% for two consecutive Curtailment Seasons in which that customer has participated in this Special Provision. The compliance level for each curtailment period shall be defined as the difference between the maximum monthly billing demand and the maximum demand within the curtailment period divided by the difference between the maximum monthly billing demand and the Firm Power Level.

The result above shall be expressed as a percentage. All maximum Kw values shall be determined on a 15 minute integrated basis.

- j) Once this Special Provision is elected, service must be taken under this Special Provision for three calendar years.
- k) Service under this Special Provision may be terminated by the Company or the Customer with one year written notice.
