O. CREDITWORTHINESS

(a) Applicability

Creditworthiness standards apply to each individual Retail Supplier selling electricity to retail customers; and, to retail customers getting their own energy supplies (Direct Customers). These standards do not apply in circumstances involving credit risks of the Independent System Operator, any applicable Power Exchange, or wholesale energy suppliers (except to the extent associated with load balancing and settlement by Central Hudson). Central Hudson requires no security in situations where it bills customers for a Retail Supplier and retains funds so collected to offset other utility charges (e.g., imbalance charges).
