TERM

Terminable at any time provided that customer cannot resume service within twelve (12) months at the same location without paying the reconnection charge set forth in General Information Section 22.

SPECIAL PROVISIONS

The numbering of the paragraphs hereunder begins with the above service classification number.

- 18.1 Secondary Service with Primary Metering - When a customer takes service at a secondary distribution voltage, but the Company elects to meter service at the primary distribution voltage, energy related charges will be billed in accordance with the rate for primary service. This provision will not apply, however, when the customer installs primary circuits because of the nature of his installation and the Company provides necessary transformers on said circuits and meters the service at the primary distribution voltage.
- 18.2 Primary Service with Secondary Metering - When a customer takes service at a primary distribution voltage, but the Company elects to meter service at the secondary distribution voltage, energy related charges will be billed in accordance with the rate for secondary service.
- 18.3 A customer who is a condominium association or a cooperative housing corporation may have the option, with the consent of the Company, of paying for service taken under this classification for a limited period in equal monthly amounts based on the application of the rate to the estimated usage during the period. At the end of this period, or at the discontinuance of service if prior thereto, the customer shall pay, or be given credit for the difference between the amount paid and the charges for the actual usages under this rate. This payment or refund shall be made under such arrangements as may be agreed upon by the customer and the Company.
