SERVICE CLASSIFICATION NO. 3 (Cont'd)

LARGE POWER PRIMARY SERVICE (Cont'd)

SPECIAL PROVISIONS (Cont'd)

3.4 ECONOMIC REVITALIZATION DISCOUNT

Any new customer, or any existing customer with load growth of at least 100 Kw of demand over the demand at their previous location, who (a) occupies an existing facility of at least 25,000 square feet which has been vacant for at least six months, (b) is classified in Standard Industrial Classification-Major Groups 20-51 and 60-89, (c) reimburses the Company for any incremental distribution system investments required to provide service and (d) has an Energy Efficiency Audit performed during the first six months of occupancy and agrees that within eighteen months of completion of the audit to implement all audit recommendations which have a payback of two years or less, will be billed for demand and energy as follows:

New Customers

New customers taking service under this special provision on or before April 1, 1998 will be billed for demand and energy at 90% of the monthly rate specified above for a period of sixty months from the date service commences, after which the customer will be billed at full rates under this Service Classification.

New customers taking service under this special provision after April 1, 1998 will be billed for demand and energy at 90% of the monthly rate specified above until June 30, 2001, after which the customer will be billed at full rates under this Service Classification.

Existing Customers

Existing customers that relocate to a qualifying vacant facility and experience load growth of 100 Kw or greater over their previous location, within the first six months at their new location, will be billed as follows upon demonstrating the required load growth.

The Company will establish a base year of billing units for energy and demand as the customer's last complete calendar year at their previous location. The base year energy and demand units will be billed at full
