SERVICE CLASSIFICATION NO. 6 (continued)  
LARGE VOLUME INTERRUPTIBLE TRANSPORTATION SERVICE

- A) APPLICABLE TO S.C. NO. 6 INTERRUPTIBLE TRANSPORTATION SERVICES: (continued)
- 12) The customer agrees that if he/she fails to discontinue his/her use of service as requested by the Company, all gas taken during such a period of requested interruption in excess of the amount the customer is permitted to take shall be billed at the stated rate in effect at the time, plus \$25.00 per Dth of unauthorized usage. The Company reserves the right, however, to terminate service under this Service Classification for failure of the customer to discontinue use of service when requested by the Company. Customer will be responsible for all claims made against the Company and for all other Company costs associated with the loss of the integrity of the Company's distribution system as a result of the customer's failure to discontinue the use of service as ordered by the Company.
- Customers with distillate alternate fuels, agree that if they fail to meet the alternate fuel requirements set forth in Rule 3.4, the penalties set forth in Rule 3.4 will apply.
- 13) Customer's initial application for service under this Service Classification shall include a twelve month profile, by months, of customer's anticipated consumption of gas, assuming that no alternative fuel will be used to displace gas.
- 14) Full cooperation is required from customer and customer's gas supplier so that the Company may accurately determine the quantities of customer-owned gas delivered into the Company's distribution system by the customer and those quantities of customer-owned gas actually transported to the customer by the Company.
- 15) When customer-owned gas is delivered directly into the Company's distribution system the customer shall pay for any investment and expenses incurred by the Company for any metering facilities installed at the point of delivery, odorization of gas and periodic testing of the gas quality.
