GENERAL INFORMATION - Continued

1. If service is to be reconnected at the meter or an existing curb valve, a reconnection charge of \$60.00 and, if applicable, the customer shall reimburse the Company for City Marshal's fees and court filing fees.
2. If service is to be reconnected at the Company's main by excavation of the street, a reconnection charge of \$150.00.

28. Limitation of Gas Supply

Gas service will be supplied by the Company subject to the provisions of orders and the amendments and interpretations thereof of any competent governmental body having authority or jurisdiction over such service and during the term thereof, notwithstanding anything to the contrary in the rules, Regulations and General Information for Gas Service and the terms and conditions of service as set forth in the individual Service Classifications.

29. Gas Service Restrictions

Effective December 1, 1971, the provisions of New York State Public Service Commission Case No. 25766 specify the gas service which may be offered or supplied under this Schedule for Gas Service. Pursuant to orders issued in that case, gas service supplied by the Company under all Service Classifications is limited as follows:

- (a) Gas service may be provided to any residential dwelling structure using gas for any purpose, provided that the gas supply used for home heating is individually metered and is utilized in a furnace, boiler, space heater or similar device supplying heat to no more than two residential units. Gas service for domestic cooking and hot water heating may be provided irrespective of whether the gas supply is individually metered or is provided through a master meter.
