SERVICE CLASSIFICATION No. 4
Interruptible Gas Service

Rate Codes: 310-Category A
311-Category C
320-Category B
321-Category D

Applicable to Use of Service for:

Service is available under this Service Classification for provision of natural gas to commercial and industrial Customers who by written contract agree to:

- (I) use the service furnished hereunder only in the equipment specified in said contract;
- (ii) not use in said equipment any gas service furnished by the Company other than the gas service furnished under this Service Classification or under Service Classification No. 7;
- (iii) discontinue the use of gas service furnished hereunder, upon 4 hours notice (or on one hour notice in the case of system emergencies) to the Customer by the Company;
- (iv) provide and maintain complete and adequate standby facilities except as may be permitted by the Company in its sole discretion because of the nature of the customer's operations; and
- (v) where standby facilities are required, keep available at all times sufficient standby fuel to maintain continuous plant operation during periods of discontinuance of service.

Availability of such service shall be subject to the conditions set forth in the Special Provisions and Rule II.7B. New customers will be required to use at least 5,000 DTH annually to qualify for this service.

Character of Service:

Gas Service provided under this Service Classification shall be on an interruptible basis. In providing service under Service Classification, the Company will, upon four hours notice (or one hour notice in the case of system emergency), interrupt deliveries of gas to any or all Customers taking service under this Service Classification whenever and to the extent that it may be advisable in the Company's judgement. This includes interruptions in order for the Company to obtain exemption from curtailment under the Company's pipeline suppliers' curtailment plans.

Rate: (per meter per month)

The Effective Rate per therm for the four categories below shall be established at the discretion of the Company, but will not to exceed the lowest terminal rate of Service Classification No. 3, plus the Gas and Pipeline Costs and Adjustments (Maximum Price); or be lower than the adjusted average cost of gas for interruptible service (Minimum Price). The four interruptible customer categories are defined as follows:
