SERVICE CLASSIFICATION No. 13 - Continued

Conditions of Service:

The points of receipt and delivery shall be as specified in the Service Agreement, provided that the receipt must be at the Company's citygate receipt points and delivery must be at a designated point of delivery on the New York Facilities System. Customers are responsible for payment of all transportation charges to the Company's citygate receipt points at a rate of at least equal to the 100% load factor rate of the pipeline providing the transportation.

Customers requiring transportation of gas from the point of delivery to the customer's meter in the Company's service territory will need to apply for transportation service from the Company.

For all balancing service, the Company shall control the dispatch of gas received for balancing.

Balancing Service Rates - Monthly Billing:

The customer shall pay the following monthly charges for balancing service during the term of service:

1. **Demand Charge** - the customer's demand charge is computed by multiplying the monthly per dekatherm demand charge of \$0.0229 by the customer's Maximum Balancing Quantity. This charge is incurred beginning with the first month of the term of service.
2. **Receipt Charge** - \$0.0130 per dekatherm on all customer-owned gas received by the Company.
3. **Delivery Charge** - \$0.0330 per dekatherm on all customer-owned gas redelivered by the Company.
