SERVICE CLASSIFICATION NO. 14  
GAS TRANSPORTATION SERVICE FOR DUAL FUEL ELECTRIC GENERATORS

Special Provisions (continued)

F. Scheduling

No later than one (1) day prior to the nomination deadline requirement of the pipeline that Customer will use to deliver gas to the Receipt Point, Customer will transmit information to Niagara Mohawk that will provide an informal forecast of the quantities of gas that Customer believes it will nominate for transportation by Niagara Mohawk for each Day during the succeeding calendar Month. On the same Day and manner in which Customer nominates the actual quantities of gas to be transported by the transporting pipeline or marketer for delivery to Niagara Mohawk, or to an aggregator for delivery on Niagara Mohawk, Customer will formally notify Niagara Mohawk of said nomination. All such notifications will be in accordance with such guidelines and practices as are customarily used by Niagara Mohawk for similar service.

The Company reserves the right to reject any application for service or nominations under this Service Classification where, in the sole discretion of the Company, the provision of service would or might result in a reduction in the Company's rights or ability to receive service, purchase gas or utilize capacity on the transmission system of its upstream pipeline(s), impair or interfere with the Company's operations, or impose costs in excess of those subject to recovery under this Service Classification.
