GENERAL INFORMATION

II. Rules and Regulations (continued):

2A. General Provisions (continued).

- .4.3.1 A reasonable time after all necessary permits are furnished and easements and/or rights of way are granted by the applicant and others to the Company;
- .4.3.2 All necessary payments are made by the applicant to the Company and the application is approved by the proper officers or duly authorized representatives of the Company.
- .4.3.3 The applicant or customer to be served by such extension have obtained and delivered to the Company said permanent easements or rights of way agreements or have agreed to pay such cost as may be incurred by the Company if at the applicant's request the Company obtains such easements or rights of way. If the applicants request the Company to obtain such easements or rights of way the applicant shall furnish reasonable security as to the performance of its agreement if so required by the Company.
- .4.4 The provisions relating to the furnishing of easements are applicable irrespective of the length of the extension.
- .5 Unusual Conditions: Where the Company cannot be assured that the business to be served will be permanent or where unusual expenditures are necessary to supply service because of the location, size, or character of the applicant's or customer's installation, facilities will be constructed only when applicant or customer makes an adequate contribution toward the cost of such facilities, or makes other arrangements satisfactory to the Company to warrant the Company to undertake the investment and expense involved.
- .6 Increased Loads: Customer shall give the Company advance written notice, in reasonable time, of any proposed increase in service required, setting forth in such notice the amount, character, and the expected duration of time the increased service will be required. If such increase in load necessitates added or enlarged facilities (other than metering equipment) for the sole use of customer, the Company may require customer to make a reasonable contribution to the cost of adding or enlarging the facilities whenever customer fails to give assurance, satisfactory to the Company, that the taking of the increased service shall be of sufficient duration to render the supply thereof reasonably compensatory to the Company.
- .7 Minimum Insulation Standards for Residential Construction of Buildings.
 - .7.1 Gas service will not be provided in a new dwelling, or to an existing dwelling for the purpose of converting to gas space heating, unless the dwelling is in compliance with Part 233, Subchapter A, of Title 16 of the Official Compilation of Codes, Rules and Regulations of the State of New York-- Minimum Insulation Standards for the Provision of Gas Utility Service. Copies of the minimum standards are available at the Company offices.
