SERVICE CLASSIFICATION NO. 3 (CONT'D)

- a. By providing at his own expense and on his side of the meter the necessary equipment to obtain such service from the three phase circuits.
OR
 - b. By making separate application for such service, in which case it will be separately metered and billed.
 - c. Three phase 120/208 volt service available if so noted at time of application.
3. service may be measured by demand and watt hour meters on the primary side of the Village's transformers, in which case the recorded demand and energy consumption will be reduced 2% for billing purposes.

PURCHASED POWER ADJUSTMENT:

The charges set forth in this Service Classification shall be subject to a purchased power adjustment clause, as provided in the generic tariff. The charges billed under this section shall be subject to Late Payment Rate.

CONDITION:

Customer will remain on this service classification until usage drops below 6000 kwh, and demand drops below 10 KW in every winter month.
