SERVICE CLASSIFICATION NO. 5 (CONT'D)

**SPECIAL PROVISIONS:**

The Village of Sherburne shall furnish, install, own, operate and maintain a photo-electrically controlled Luminaire complete with not less than a 30 inch bracket, ballast and a multiple lamp at the wattage designated under the rate charge desired. The Board shall also provide a cable service span of 100 feet, which will be connected on the line side of the customer's meter. Where the service span exceeds 100 feet, the customer shall pay for the additional cable used.

The lighting unit will be installed only on private property owned or leased by the customer. The customer shall furnish the necessary pole or other support, except as hereinafter provided. The Village of Sherburne reserves the right to require a mounting height which will provide proper light distribution from the unit. Where a pole is appropriately located on the premises, the Village of Sherburne may waive the requirement that the support be furnished by the customer, and install the unit on it's own pole.

Upon request of the customer, the Village of Sherburne will change the location of the lighting unit, providing a proper support is furnished and customer agrees to pay the Village of Sherburne for cost incurred in making such change.

Lighting service will be provided every night and all night during the hours between 30 minutes after sunset and 30 minutes before sunrise, aggregating about 4,200 hours per year, unless prevented by accidents or other causes beyond the control of the Village of Sherburne.

The customer shall notify the Village of Sherburne whenever the lamp shall become extinguished or out of service for any reason and the Village of Sherburne shall replace the lamp and/or make the necessary repairs with reasonable promptness.

The contract is subject to cancellation in the event that maintenance or lamp replacement becomes excessive due to vandalism and other causes.
