SERVICE CLASSIFICATION NO. 2 (CONT'D)

A monthly late payment charge will be assessed at a rate of one and one-half percent (1½%) per month on a customer's unpaid balance, including service billing arrears and unpaid late payment charges. Remittance mailed on the "last day to pay" date will be accepted without the late payment charge, the postmark to be conclusive evidence of the date of mailing. The failure on the part of the customer to receive the bill shall not entitle him/her to pay without the late payment charge after the "last day to pay" date.

TERMS AND CONDITIONS:

This rate is available for total requirement customers with usage less than 3500 kWh in any winter month (November through April billing periods). Customers exceeding 3500 kWh in any winter month shall be transferred to Service Classification No.3 for a period of twelve months. If consumption is then less than 3500 kWh and less than 10 kW per month, for 12 consecutive months, the customer will be returned to Service Classification No. 2.

SPECIAL PROVISIONS:

Customers electing to combine single phase and three phase service for metering purposes must install the necessary transformer on the load side of the three phase meter, maintaining proper phase balance.

PURCHASED POWER ADJUSTMENT:

The charges set forth in this service classification shall be subject to a purchased power adjustment as explained in the NYMPA generic tariff.

The charges billed under this section shall be subject to the late payment rate.
